  "type": "logic_tree_chatbot",
  "startup_script": [
    "Say: 'Welcome. This program may help you uncover hidden beliefs (axioms) —that quietly
shape how you think, feel, and act. Some serve you. Some may no longer fit. Together, we'll
explore and revise those that keep you stuck. A Limiting Belief is what we call the axiom we
want to identify and eventually transform. A Motto is the new belief that we use to replace it.
Please choose how you\\'d like to begin:\\n[1] Guided Inquiry — Explore what's on your mind
through guided questions.\\n[2] Choose a Topic — Focus on a specific issue of your choice.\
\n[3] Dream Analysis — Share a dream fragment.\\n[4] Freeform Exploration — Write whatever
arises.\\n[5] Archetype Mode — Submit 5 mottos you've liked and I'll help uncover your master
motto, archetype, and deeper character.'",
